

QUALITY, ENVIRONMENTAL, SOCIAL, SAFETY AND HEALTH AT WORK MANAGEMENT POLICY

Buenaventura is dedicated to mining, related industries and electric power generation-distribution, focused on creating the greatest possible value for society, achieving high performance in Quality, Environmental, Social, Safety and Health at Work Management.

To achieve this, we are committed to:

- **Provide** adequate working conditions, for all people, be they collaborators, contractors, or visitors; applying preventive measures to avoid injuries, illnesses, adverse environmental impacts, and losses in the processes.
- **Control** our processes and risks related to quality, environmental aspects, and dangers prioritizing their elimination through our Continuous Improvement programs.
- **Comply** with applicable legislation, internal regulation, and the assumed commitments with the stakeholders and those established in our management instruments.
- **Encourage** consultation and participation of collaborators and their representatives.
- **Promote** the identity and sustainable development of the community within our surroundings, respecting their culture under the principles of Shared Social Responsibility.

Likewise, Quality, Environmental, Social, and Safety and Healthy at Work Management must be incorporated into the Buenaventura Integrated System (SIB).

Lima, November 28th, 2018

Roque Benavides
Chairman of the Board
